Re: Jorgensen Forge PL Outfall First Modification
to AOC Signatures and Phase 2 Work Plan

Project: 010128-01

<u>Number</u>	<u>Description</u>
1	Jorgensen Forge PL Outfall First Modification to AOC Signatures and Phase 2 Work Plan (CD)

Comments:

Enclosed please find The Jorgensen Forge Corporation (Jorgensen Forge) and The Boeing Company (Boeing) signatures on the EPA-provided First Modification for the Administrative Order on Consent For Removal Action (Order) for the Jorgensen Forge Outfall Site (CERCLA Docket No. 10-2011-0017) and the Phase 2 Geoprobe Soil Investigation Work Plan (Work Plan). The content of the Work Plan is consistent with the content that was summarized to you at a meeting at Anchor QEA's office in the fall of 2011. Jorgensen Forge and Boeing are prepared to conduct the work immediately (pending contractor availability) following EPA's execution of the First Modification to the Order and approval of the Work Plan. Please let me know if you have any proposed revisions/comments on the Work Plan and when you expect the Order will be executed so we can initiate schedule discussions with the selected contractor to perform the Geoprobe investigation.

Sincerely,

Ryan Barth, Anchor QEA
